

WE MAKE MAINTENANCE SIMPLE

Ditch the spreadsheets and start managing your equipment, providers and internal team in one place, Equips.com.

Cut Downtime

Time is money. Prevent costly, unplanned downtime and get your preferred providers the right information automatically.

Unify Processes

Build better workflows. Set one predictable process for both internal work orders and external service providers.

Save Resources

Eliminate waste and digitize equipment management. Provide a better experience for both your employees and your customers.

ABOUT US

Equips is revolutionizing how people manage, maintain and protect critical equipment. Our all-in-one equipment management solution combines smart technology with flexible protection. Ditch the spreadsheets and start managing your equipment, providers and internal team in one place, Equips.com.

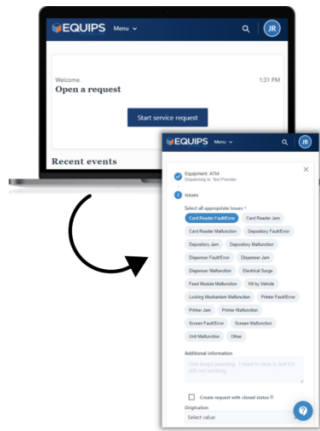

TESTIMONIAL

“Staff time on equipment service events has dropped from an average of 24.7 hours per month to only 5.1 hours.”

DAVY VILLANUEVA
Extraco Banks

ONE PLACE, ONE PROCESS.

Gain visibility to all equipment, across locations and dispatch service providers in as little as 15 seconds.

Vendors & Providers

SMART DISPATCH

When things break, get them fixed faster. From ATMs to plumbing and more, get all of your providers in one place for your team to dispatch, in 15 seconds or less.

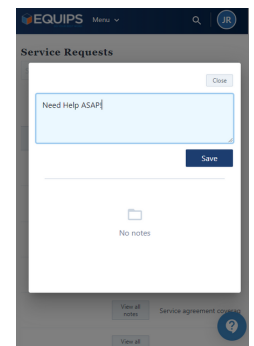

Take the guesswork out of who to contact and auto-dispatch your preferred providers. Give people the right information with built in location & equipment information.

Internal Team

WORK ORDER ROUTING

Stop getting too many people involved to solve one problem. Give your team one place to go for help, whether its for IT, grounds, retail, facilities, or security issues.

Streamline the flow of requests to one channel. Avoid email follow-up, missed calls, and in person interruptions and take back control of your day.

Cloud-based Inventory List

Manage all of your critical equipment, across all locations, from anywhere.

Chronic Issue Alerts

Prevent unplanned downtime and costly repairs. Get notifications on underperforming equipment and fix it.

Customizable Dashboard

Get at-a-glance insights to make data-driven decisions about priority locations and equipment.

Unlimited Data Storage

Your data, stored forever. Say goodbye to filing cabinets and binders and hello to anywhere access at your fingertips.

Auto Maintenance Tracking

Get real time updates on issues as they occur. Stay in the know about the status of equipment and maintenance at every location.

Single Source Billing

Avoid billing errors and overcharges. Match invoices to issues and pay all of your providers from one place.

Preventive Maintenance Scheduler

Set it and forget it. Automatically schedule and keep a record of PMs for all equipment.

Consumable Orders

From toner to envelopes, order what you need directly from the app, and ship it to the right location.
